SUBJECT: Modifications to the list of USDA-approved Nutrient Analysis Software

<u>**CONTACT: Kim Loveland**</u>   **PH: (801) 538-7562**

This is to inform you that Accu-Scan Division has incorporated the most recent version of the Child Nutrition Database - Release 10 into the *Meal Tracker Menu Planning* software. *Meal Tracker Menu Planning* does meet the USDA requirements for use in conducting nutrient analyses for Nutrient Standard Menu Planning and in meeting School Meals Initiative requirements.

The Food and Nutrition Information Center updates the official list of USDA-approved software according to the software evaluation coordinator's recommendations. The expiration date for the *Meal Tracker Menu Planning* software was removed from the official list once the evaluation coordinator confirmed that the requirement was met. The current list of USDA-approved software programs is attached for your reference and can be found at: http://healthymeals.nal.usda.gov/nal_display/index.php?info_center=14&tax_level=2&tax_subject=234&topic_id=1209 .

The issuance of this memorandum rescinds memorandum NSLP 24-06.
